Crystal Singing Bowls: Living the Vibrational Integration

Vibrational frequencies will facilitate our participation with the new Earth Energies we are experiencing in this Now. Beginning with an experience of "This Is Your Now", the singing bowls will orchestrate with your 'cellular knowing' and 'mind understanding' the difference between "Doing" and "Being", and how "Being" can easily be integrated into each moment's celebration of You and Your Now. "Earth Star Communication" embodies the living manifestation that all we have to do is be the best we can be, trusting that each moment is giving us everything we need and everything we'll be. "The Beta Alignment" vibrationally sets this impulse energetically into our cellular knowing.

SATURDAY JULY 22 SPIRIT & SPIRITUALITY

Sacred Inner Theatre - "The Art of Not Knowing"

All of us are experiencing a multitude of life/lives time experiences all in this NOW. The paradox here is that your true greatness comes as a transition from ego-centrism to a service-centric reality. In this presentation Bennett will be offering techniques and 'coded guideposts' to assist and further your transition from the current global 'limited' paradigm to interacting consciously and co-creating with the quantum field of limitless experience and potential.

Finding Your Power: Reflection Of Story

Do you see yourself as others see you? How would you describe the nature of self through the story? Storytelling is age old and the bedrock of the history of all people and lands. Yet with each story the history being revealed is through the eyes of the storyteller, and in most cases it is a one sided view. Who we are is revealed in our story and in our energy and are they the same thing! What can we learn from both! Through the reflection of a small part of my journey I will share ways for you to see your reflection more clearly.

12:00 pm - **Lunch in the Park!** See our Food Vendors

1:00 pm - **Michael Aiello** (Lower Lodge)

Under The Mountain's Influence

This workshop is about Mt Shasta as a powerful presence that impacts the psyches of those who visit and live here. The mysteries that swirl around the mountain penetrate at deep levels whether consciously believed or not. When I first moved up here, in 1981, synchronicities started lighting up my path in flashes. I wouldn't have used those terms back then, since they hadn't emerged yet. I began having dreams of the mountain and of Telos, the underground city; the synchronicities intensified, as well as mystical and magical experiences. Living the spiritual reframe is living life from the higher perspective, moving from the hapless to the happening, and learning how to foster the miraculous.

Opening To The Realness Of God

Planet earth is evolving and so must we. 3rd density is ending. 4th density is about to begin. We must be the humanness of this if we hope to participate with it. This requires a working knowledge of God and universe humanly. There is God, what created us, what brought us to life, and what conquered us. There is only the oneness of God, the healing of life, the wholeness of the Christ, and the ascension of that which serves. Our mind is God. Our body is love. Our spirit is light. Our soul is the universe. These make us the humanness of what is real and true.

Vibrational Vitality is a result of the proper functioning of the subtle energetic system which supports and supplies all levels of our being. Taken as a whole, this subtle energetic system is often referred to as our luminous energy field, or light body. When you put your hands on a client's body, a conversation begins. This is what I call intuitive conversation. Guided

by this process, you can learn to bring together three key elements to create deep and lasting healing for your clients and their bodies, that isn't just a quick fix where they leave feeling great and then come back like nothing ever changed. This workshop will discuss Alignment: Returning the structures of the body back to where it was designed to be, Attunement: Teaching you the lost language of sensation, and Assembly: Re-building integrated Core Structures to cultivate empowerment, better performance and freedom from pain.

The food you grow in your yard tastes so much better than store-bought and easily replaces the junk foods you want to give up anyway. From there to remember how it was you first came forth as a Presence and when you first entered our universe, galaxy and earth. 8:30 pm - **Della Clark** (Lower Lodge)

Integration of Sacred Sound:

An Experience of Oneness with All That Is

Many cultures have ancient traditions of spiritual practice utilizing sound vibration in the form of song, prayer chant, and harmonic toning. Della will share techniques to open your chakras, clear your chattering mind, and allow your body to become a sacred instrument, a portal of sacred space. The circle will experience a form of Mongolian Overtone Chanting and Bonpo Chant. No chant or singing experience is needed. The group sound created will open, awaken, every cell in your physical form. This is an opportunity to experience oneness with all that is. It's also a moment to bring all your awakening experiences during The Best of Mt Shasta Conference & Festival to a level of wholeness for all of life on the earth and throughout the universe.
